

ORB COMPOSER S

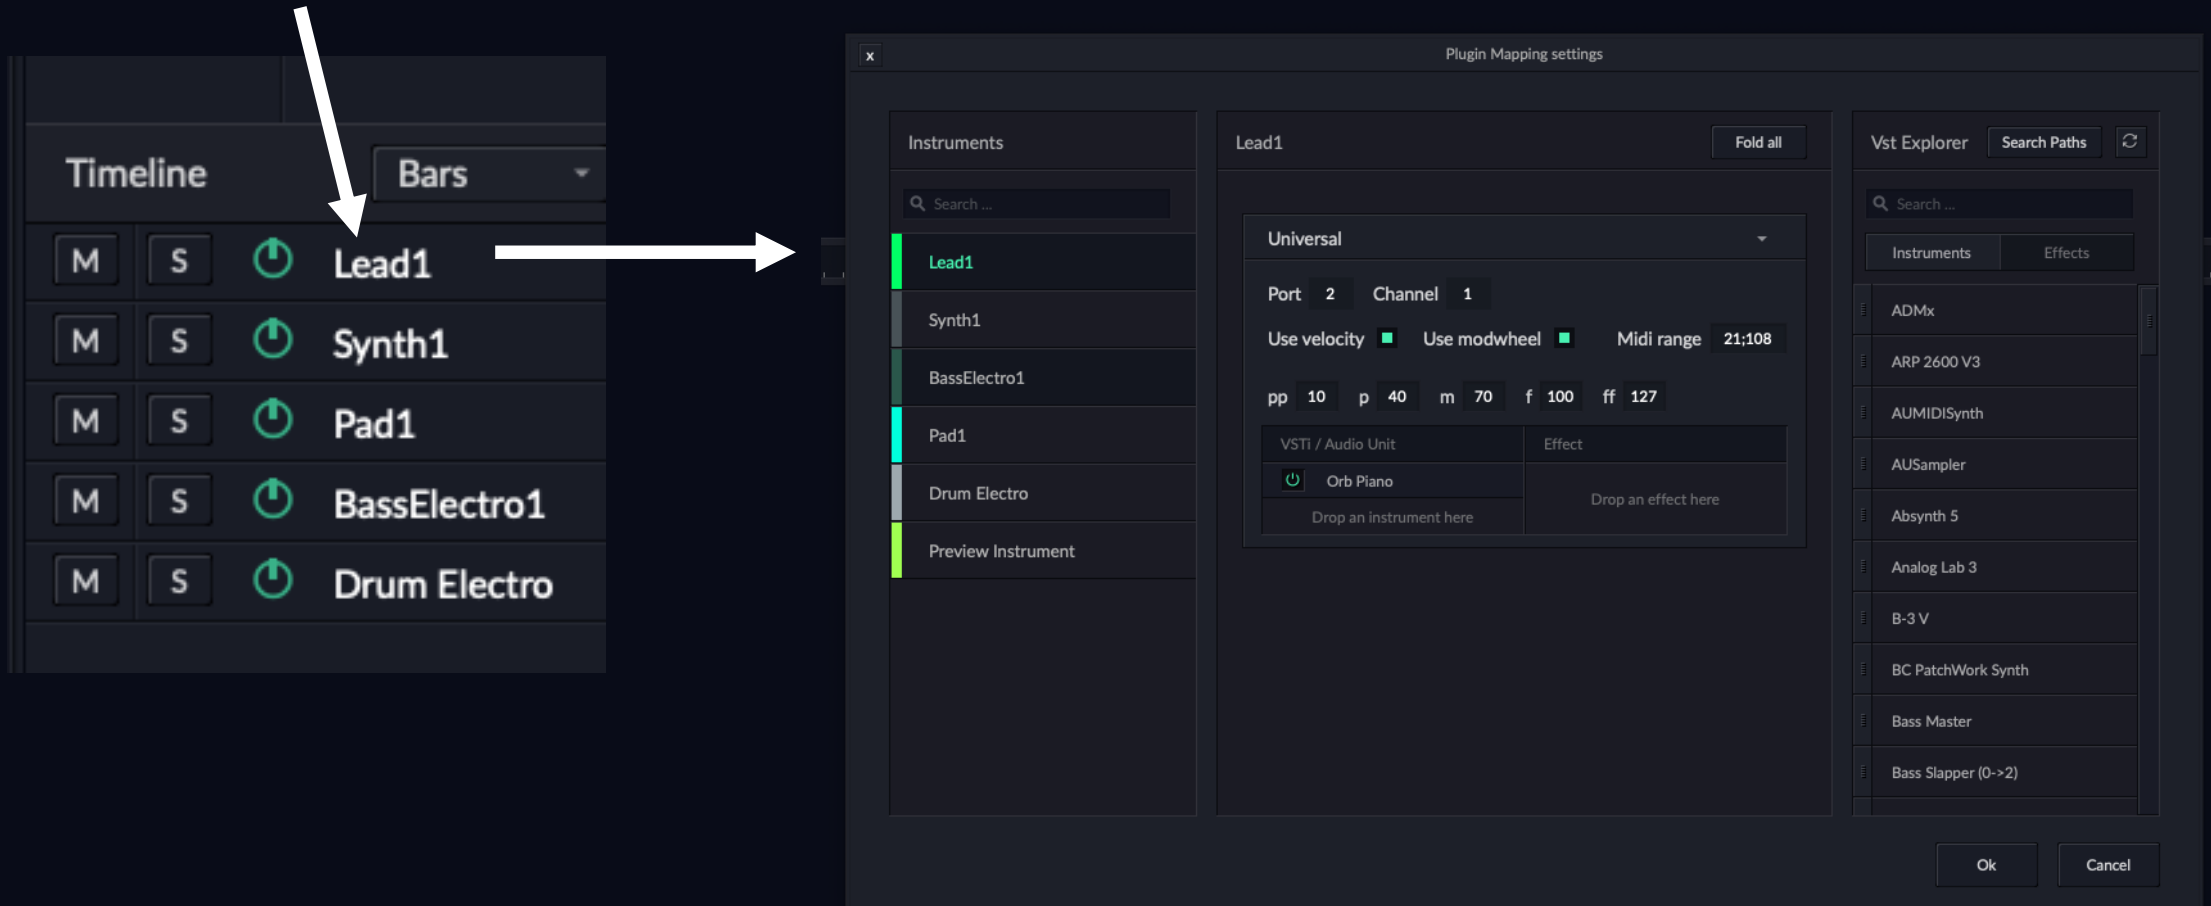

GETTING STARTED

1.VST / AUDIO UNIT support

You can add your own plug-ins and instruments directly in Orb Composer. Orb Composer will scan your plug-ins the first time you launch it.

Left click on your instrument to open the plugins windows to edit the plugins for this instrument.

Add some custom plug-ins folder

Rescan button, for a new plugins rescan

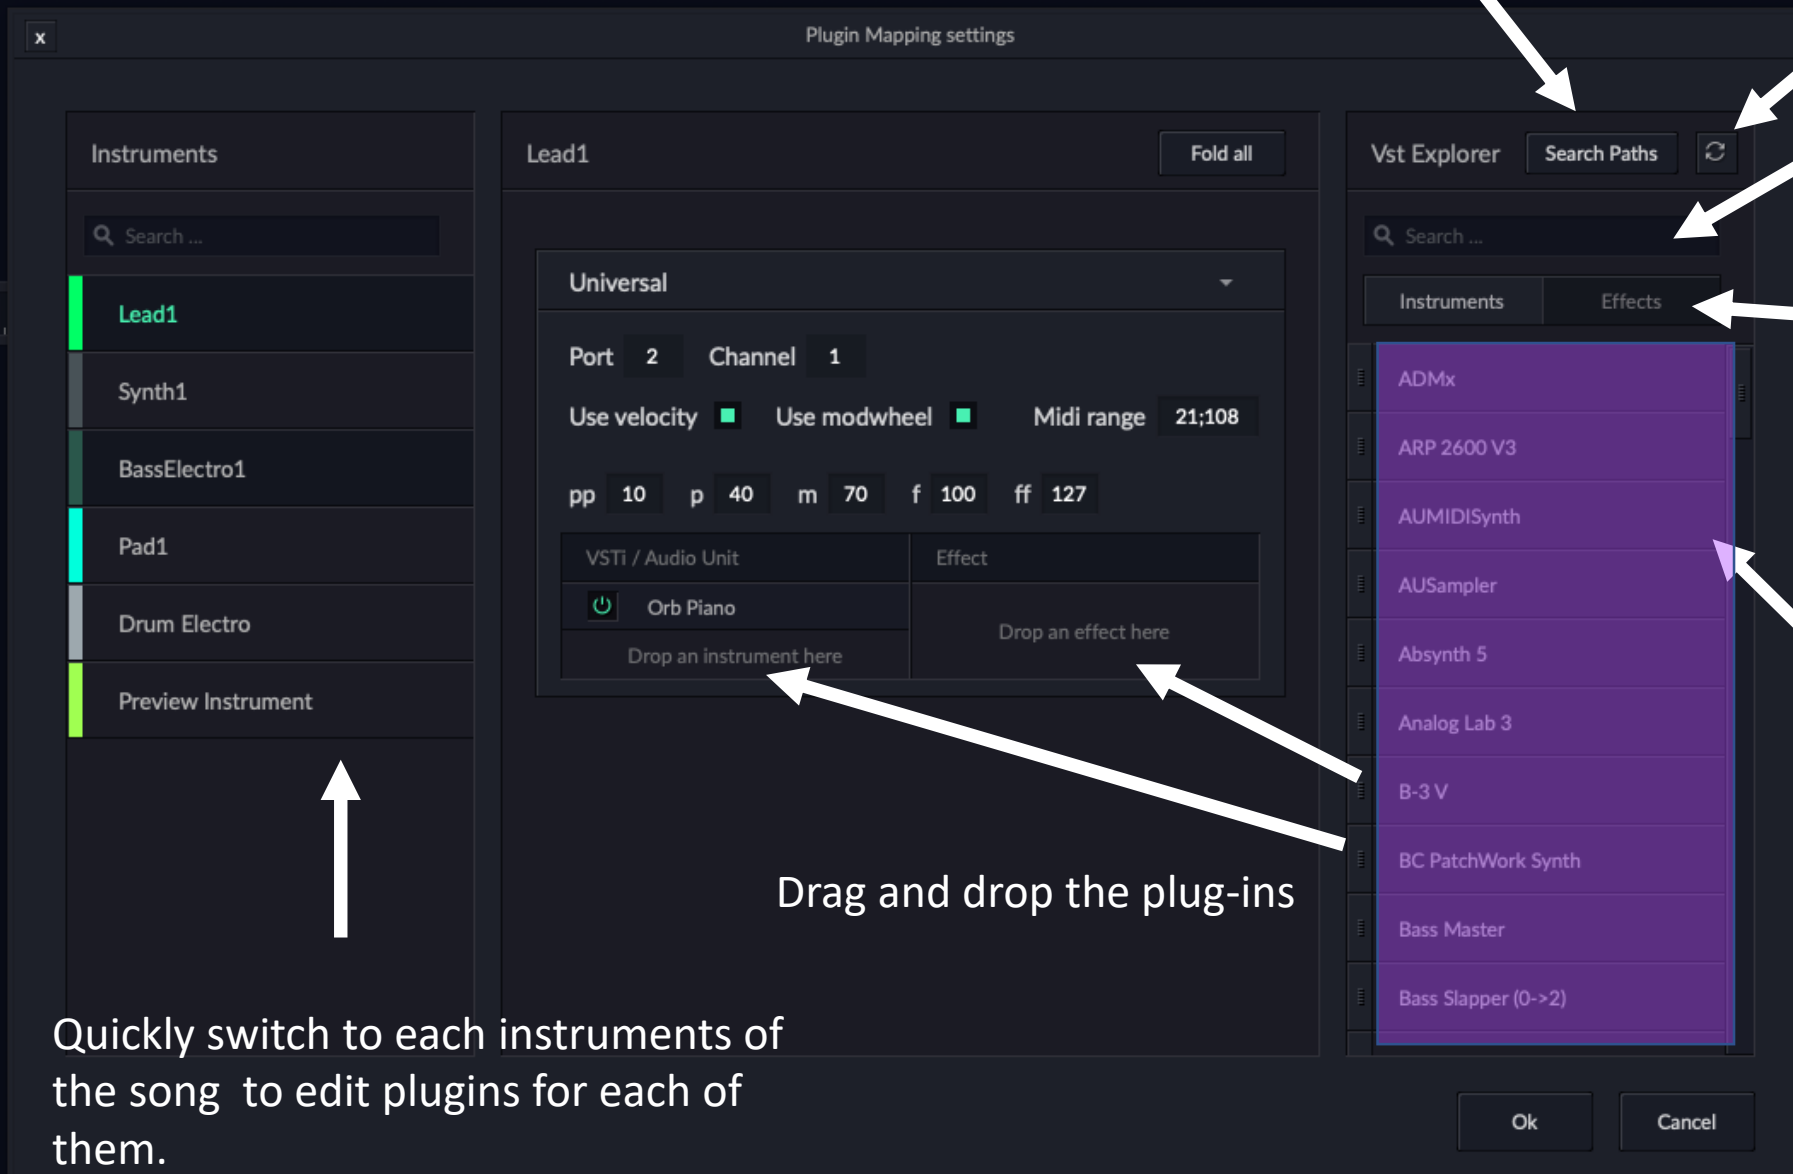

Instrument and effects search engine

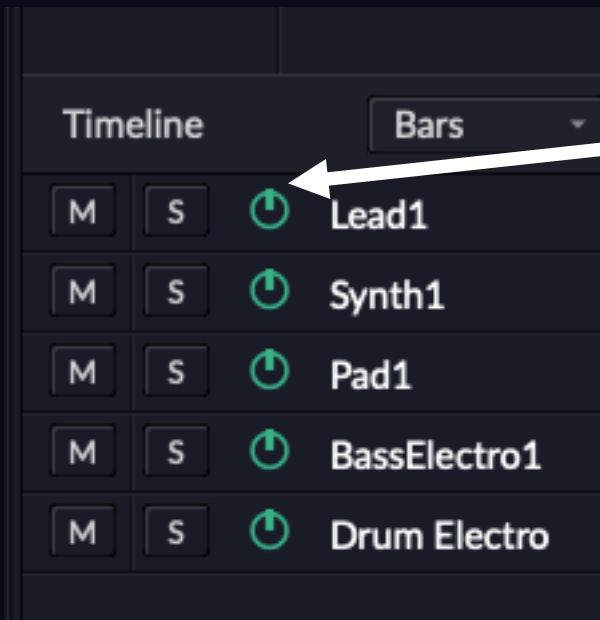

You can switch between instruments and effects

Instruments and effects list are inside this column

Drag and drop the plug-ins

Quickly switch to each instruments of the song to edit plugins for each of them.

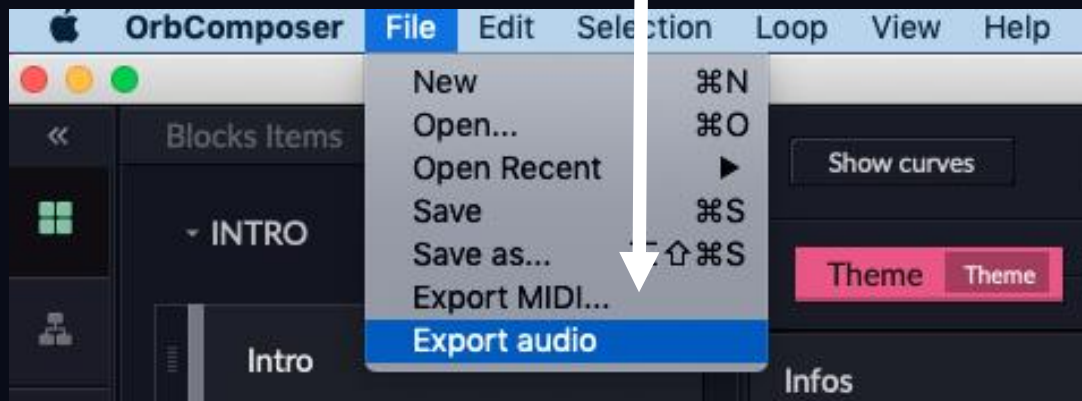

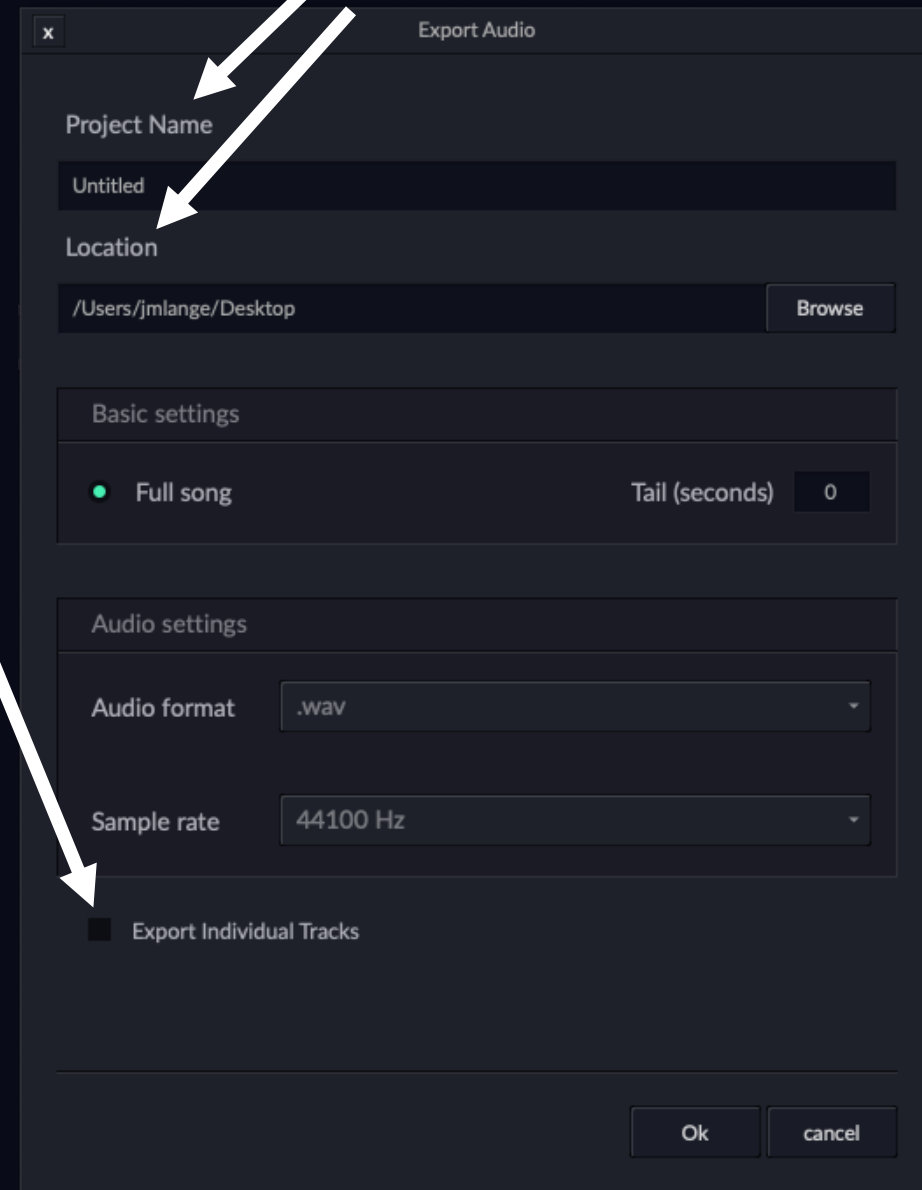

Control your volume

Export all your songs or individual tracks. All the tracks start at time 0 so that you don't need to reposition them for post edition

Export your audio

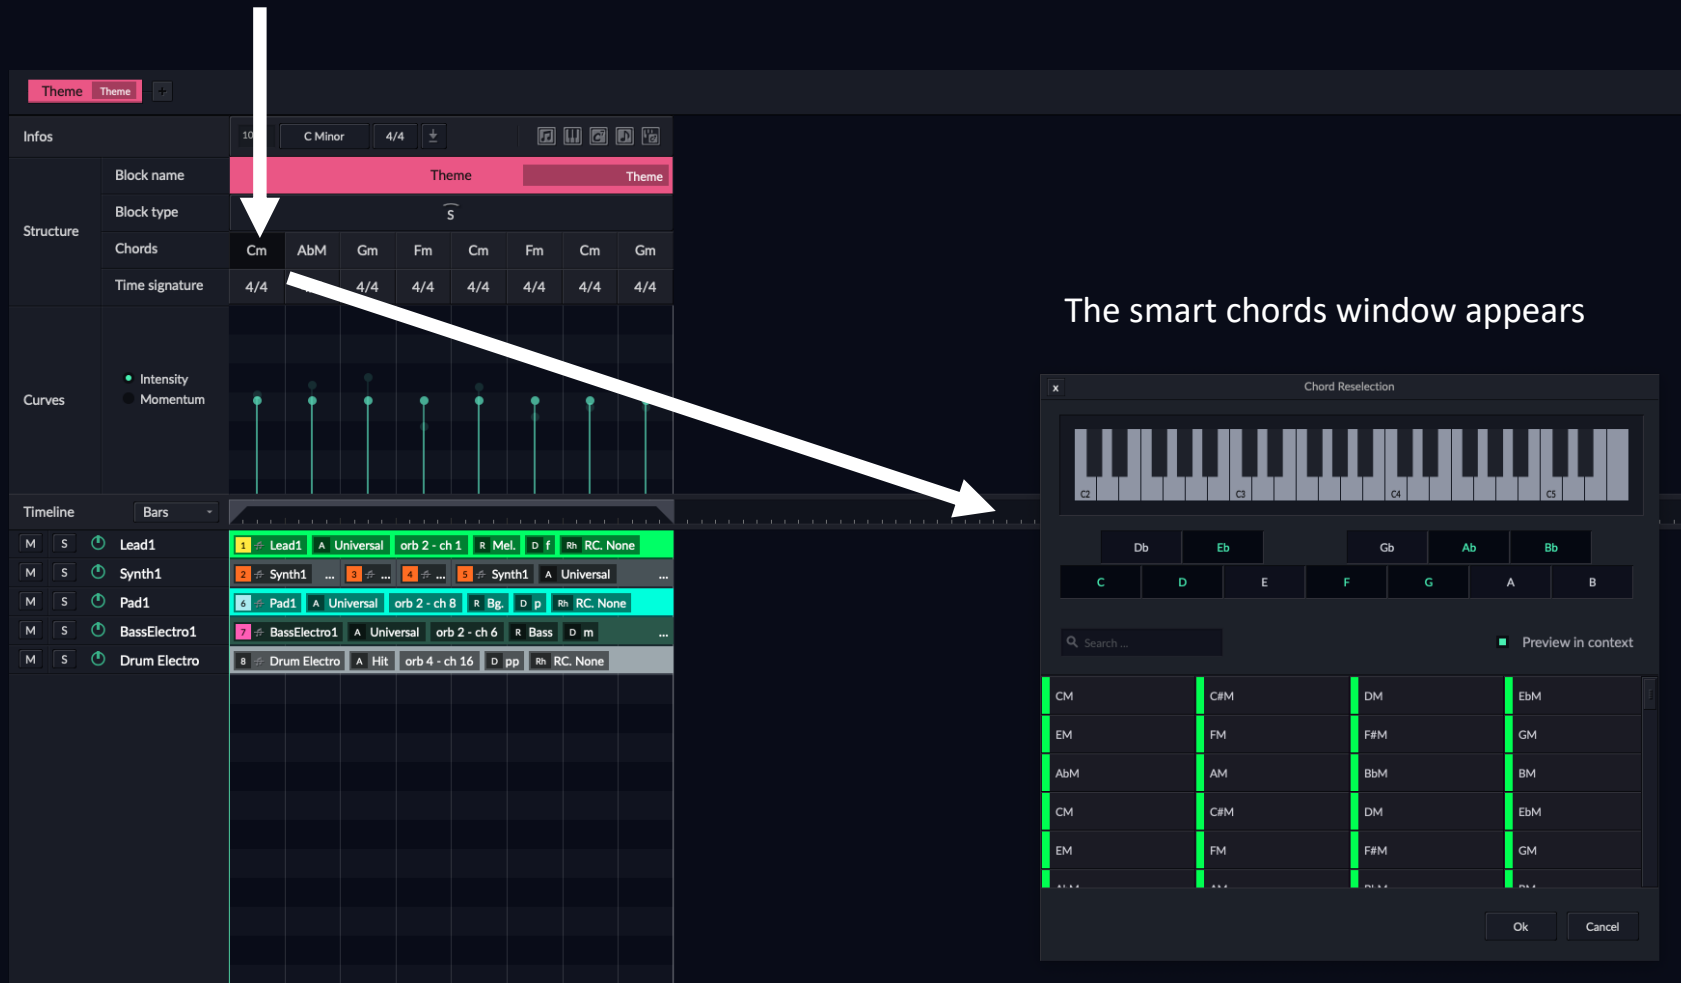

Choose a project name and a location

2. New Smart Proposition chords

Orb Composer S has a smart chord suggestion feature.

Double-click on the left mouse button on a chord to open the smart chords window

Audio Preview using the integrated Piano sound

Filter

Filter

Preview in Context means you will hear the previous chord, the selected chord and the next chord.

From Green to Red, Green being probably the most relevant

Chord Reselection

Preview in Context

DM	DM	DM	Dm
Dm	Dm	Ddim	Ddim
Ddim	D+	D+	D+
D7	D7	D7	D7
DM7	DM7	DM7	DM7
D-7	D-7	D-7	D-7

Ok Cancel

3. Split chords (multiple chords per bar)

Split your chords easily

Click on a chord in the main window

Select « split »

The screenshot shows the main window of ORB Composer S. At the top, there are controls for measure number (107), key signature (C Minor), and time signature (4/4). Below this is a red bar labeled "Theme". The main area is a grid of chords. The fifth cell in the first row is selected, and a context menu is open over it. The menu options are: Edit, Copy, Paste, and Split. A white arrow points from the text "Click on a chord in the main window" to the selected chord cell. Another white arrow points from the text "Select « split »" to the "Split" option in the context menu.

107	C Minor	4/4						
Theme					Theme			
				S				
	Cm	AbM	Gm	Fm	Cm	Fm	Gm	Gm
ure	4/4	4/4	4/4	4/4	4/4	4/4	4/4	4/4

Then the chord is split in 2 parts

The screenshot shows the result of splitting the chord. The grid now has two columns for the split chord. A white arrow points from the text "Then the chord is split in 2 parts" to the split chord area. The context menu is no longer visible.

	S							
	Fm	Cm EbM	Fm					
	4/4	2/4 2/4	4/4					

4. Drums have been improved

New drums algorithms. New possibilities.

USE DRUMKITS OR USE SEPARATE COMPONENTS TO MAKE YOUR OWN CUSTOM KIT

2 new GENERAL MIDI drumkits.
(Your VST must be set to GENERAL MIDI)

- DRUMS
- Acoustic Bass Drum
- Bass Drum 1
- Side Stick
- Acoustic Snare
- Hand Clap
- Electric Snare
- Low Floor Tom
- Closed Hi Hat
- High Floor Tom
- Pedal Hi-Hat
- Low Tom
- Open Hi-Hat
- Low-Mid Tom
- Hi-Mid Tom
- Crash Cymbal 1
- High Tom
- Ride Cymbal 1
- Chinese Cymbal

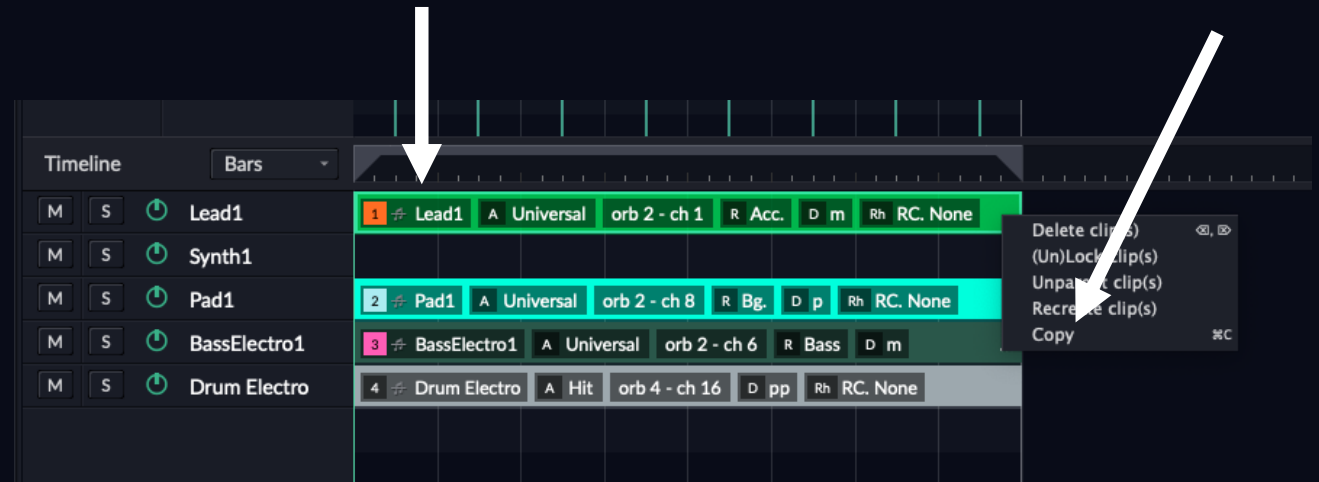

The screenshot displays the software's drum kit configuration interface. On the left, a 'DRUM_KIT' menu lists 'Drums Accoustic' and 'Drum Electro'. The central area shows a MIDI structure table with columns for 'Block name', 'Block type', 'Chords', and 'Time signature'. The 'Chords' row lists Cm, AbM, Gm, Fm, Cm EbM, Fm, Cm, Gm. The 'Time signature' row lists 4/4, 4/4, 4/4, 4/4, 2/4 2/4, 4/4, 4/4, 4/4. Below this is a MIDI piano roll with notes for 'MCL', 'Synth1', 'Bass', and 'Drum Electro'. On the right, the 'EZ DRUMMER 2' interface is visible, showing a virtual drum set and a 'Plugin Mapping settings' window for 'Drum Electro' with parameters for 'Hit', 'Port', 'Channel', 'Use velocity', 'Use midwheel', 'Midi range', and 'VST1 / Audio Unit'.

6. Copy/Paste clips

Now you can copy / paste clips on Orb Composer

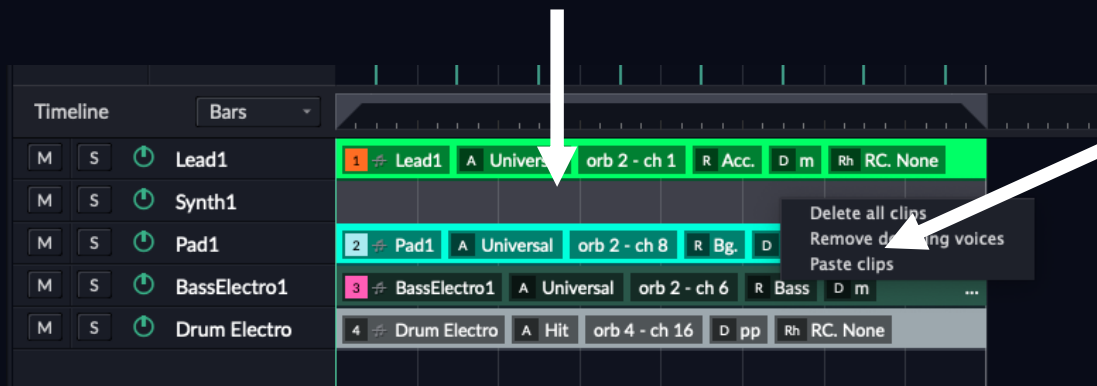

Right click on the CLIP you want to copy

Select COPY CLIP

Right click on the CLIP you want to paste contents

Select PASTE CLIP

The clip is pasted
